Professional Summary

Full Stack Developer with 3 years of hands-on experience in developing scalable, high-performance web applications using **React.js**, **Java Spring Boot**, and **Microservices Architecture**. Adept in building secure RESTful APIs, responsive UI components, and real-time systems. Proven expertise in Agile development and DevOps practices using Docker, Kubernetes, and AWS. Passionate about writing clean code and building intuitive user experiences.

Current CTC: ₹8.16 LPA | **Expected CTC:** ₹11–12 LPA | **Notice Period:** 30 Days

Technical Skills

Frontend: React.js, Redux, TypeScript, JavaScript, HTML5, CSS3, Material UI (MUI)

Backend: Java (8+), Spring Boot, Spring Security, Hibernate, JPA

Database: MySQL, PostgreSQL, Oracle

DevOps & Cloud: Docker, Kubernetes, Jenkins, Git, AWS (EC2, S3)

Tools: IntelliJ IDEA, Postman, JIRA

Architecture: Microservices, REST APIs, MVC

Professional Experience

Full Stack Developer

Coral Telecom Limited, Noida — *Aug 2022 – Present*

- Developed and maintained responsive UIs using React.js, Redux, and Material UI.
- Built RESTful APIs with Spring Boot, implementing role-based access with Spring Security.
- Enhanced modularity and performance in microservice-based architecture.

- Integrated real-time communication features: chat, notifications, video calling.
- Worked within Agile teams, collaborating with designers, QA, and backend developers.

Key Project: Unified Communication Platform

- Designed a secure, real-time messaging and video calling platform.
- Implemented role-based login, contact management, and notifications.
- Technologies: React.js, Spring Boot, PostgreSQL, Docker

Projects

Kumbh Mela Management System

React.js, Spring Boot, GIS, PostgreSQL

- Designed scalable dashboards for crowd monitoring and disaster response.
- Integrated map visualizations for real-time control.

RDSO Standards Portal

React.js, Spring Boot, MySQL

- Built a standards compliance portal with role-based document management.

Conference Management System

React.js, Spring Boot

- Implemented session tracking, multi-user access, and feedback analytics.

ADHCS – DRDO

Java, Spring Boot, SIP, PostgreSQL

- Developed a military-grade communication simulator with secure broadcast.

IVR Call Management System (IRIS & Manager)

Java, Spring Boot, PostgreSQL, Linux

- Enhanced IVR flows, backend call routing, and real-time telemetry monitoring.
- GitHub: IRIS Call Manager

Education

Master of Computer Applications (MCA)

Dr. Ram Manohar Lohia Avadh University, Ayodhya — 2019 – 2021 — 70%

Bachelor of Computer Applications (BCA)

K.S. Saket PG College, Ayodhya — 2016 – 2019 — 68%

Certifications

- Java Full Stack Developer – Ducat India, Noida (Nov 2021 – May 2022)

SOFT SKILLS

- Problem Solving
- Effective Communication
- Ownership & Responsibility
